Mr. Steve McCracken
Project Manager
U.S. Department of Energy
Weldon Spring Site
Remedial Action Project
7295 Highway 94 South
St. Charles, Missouri 63303

Dear Mr. McCracken:

As you requested the Missouri Department of Natural Resources has reviewed your letter of December 16, 1991 and the accompanying report of November 15, 1991 regarding the possibility of a fault at the Weldon Spring Site (WSS).

Attached is a memorandum from Dr. Jim Williams, Director and State Geologist, Division of Geology and Land Survey concurring in your conclusion that there is no evidence of faulting beneath the site. The memorandum also includes some comments for your consideration.

Sincerely yours,

DIVISION OF ENVIRONMENTAL QUALITY

David E. Bedan
Radioactive Waste Cleanup Coordinator
